

Sept 5<sup>th</sup>

- Product team slack recreated and future plans and requirements were set

Oct 7<sup>th</sup>

- Decided on a mini git hub project and began drawing up designs

Oct 14<sup>th</sup>

- Modify designs based on feedback from other teams
- Uploaded all designs to Github

Oct 28<sup>th</sup>

- Finished all design mock ups and sent them to front end
- Asked other teams for user feedback and other needs

Nov 18<sup>th</sup>

- Put together a bulldog design for the logo. We decided to put the bulldog inside a bucket to represent Bulldog buckets which would be the name of the final project
- At this point we finished

Nov 25<sup>th</sup>

- Finished all design problems
- Started to create user stories for presentations

Dec 2

- Finished user stories and finished final presentation for group
